- Github

Soft Skill

- Team Work
- Adaptability
- Communication
- Problem Solving
- Leadership
- Time Management

Education Background

- Jimma University
B.sc in Software Engineering
2021 - 2025
- Millennium Academy Highschool
Ranked Top 3% in Ethiopian University National Exam
2017 - 2020

About Me

A critical-thinking Junior Software Engineer, 4th year student at Jimma University, specializing in frontend development. Proficient in translating design concepts into responsive interfaces. Eager to contribute to innovative software solutions and collaborate with a dynamic team to achieve project success. Committed to delivering high-quality results and making a positive impact.

Experience

OASIS INFOBYTE | Frontend Developer Intern

2024 – Present

Key responsibilities:

- Write clean, well-documented, and efficient code to bring design concepts to life on web applications.
- Work with frontend frameworks (e.g., React) to develop scalable and maintainable web applications.
- Identify and address performance bottlenecks in web applications to ensure optimal loading times.
- Implement techniques to improve website speed and overall user experience.
- Communicate effectively with backend developers, UX/UI designers, and other team members to ensure seamless integration of frontend and backend components.

Forage | React Developer Intern

June, 2023 – August, 2023

Key responsibilities:

- Collaborate with design teams to implement visually appealing and responsive user interfaces.
- Collaborate on cross-functional projects, contributing to the overall success of the development team.

Web Development Project | Self-Employed

January, 2023 – Present

Key responsibilities:

- As a self-motivated student with a passion for web development, I initiated and led an independent project to enhance my skills and contribute to my learning
